**Plant Breeding  
then...**

Individual  
Heuristics & Empirics

**... and going  
forward**

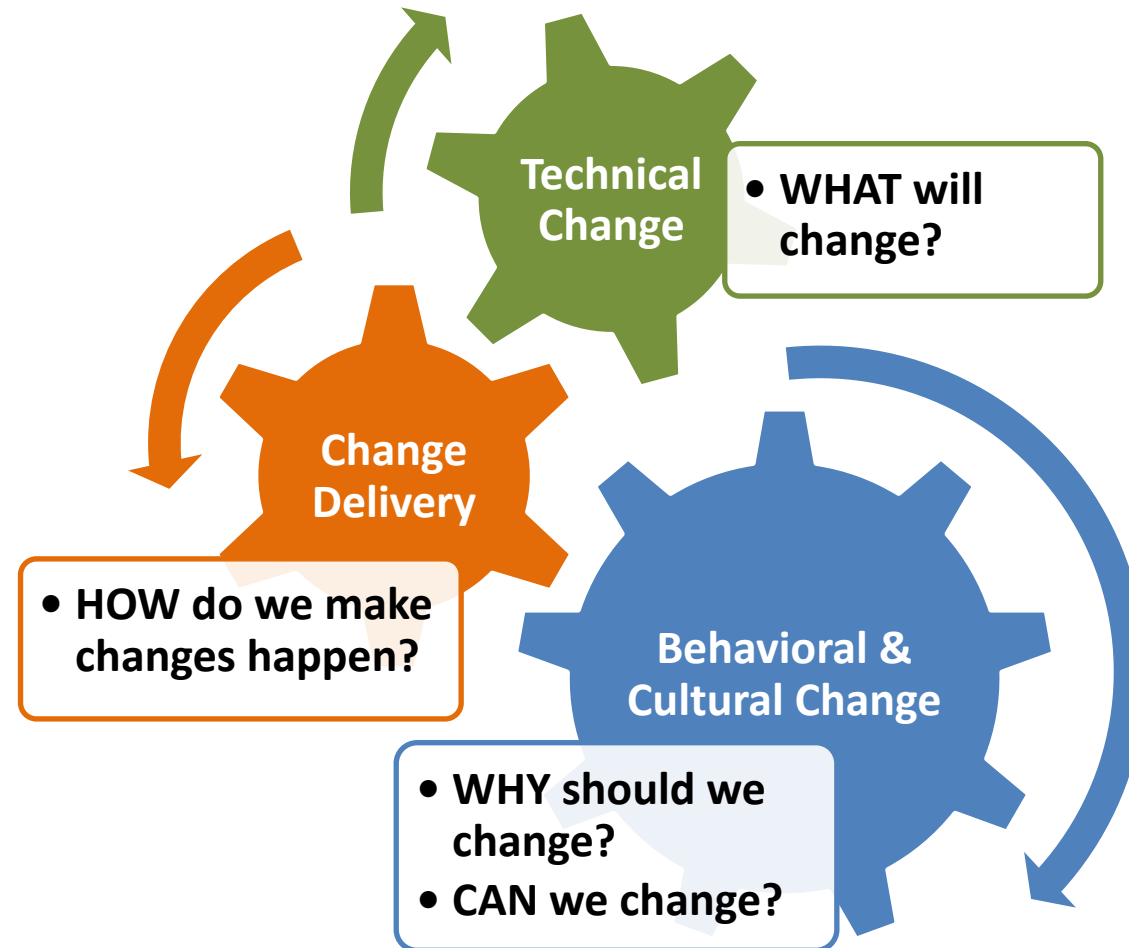

Collaborative  
Diagnostics & Prediction

There is **no way** to get the  
wrong change right

but **thousand ways** to get the  
right change wrong

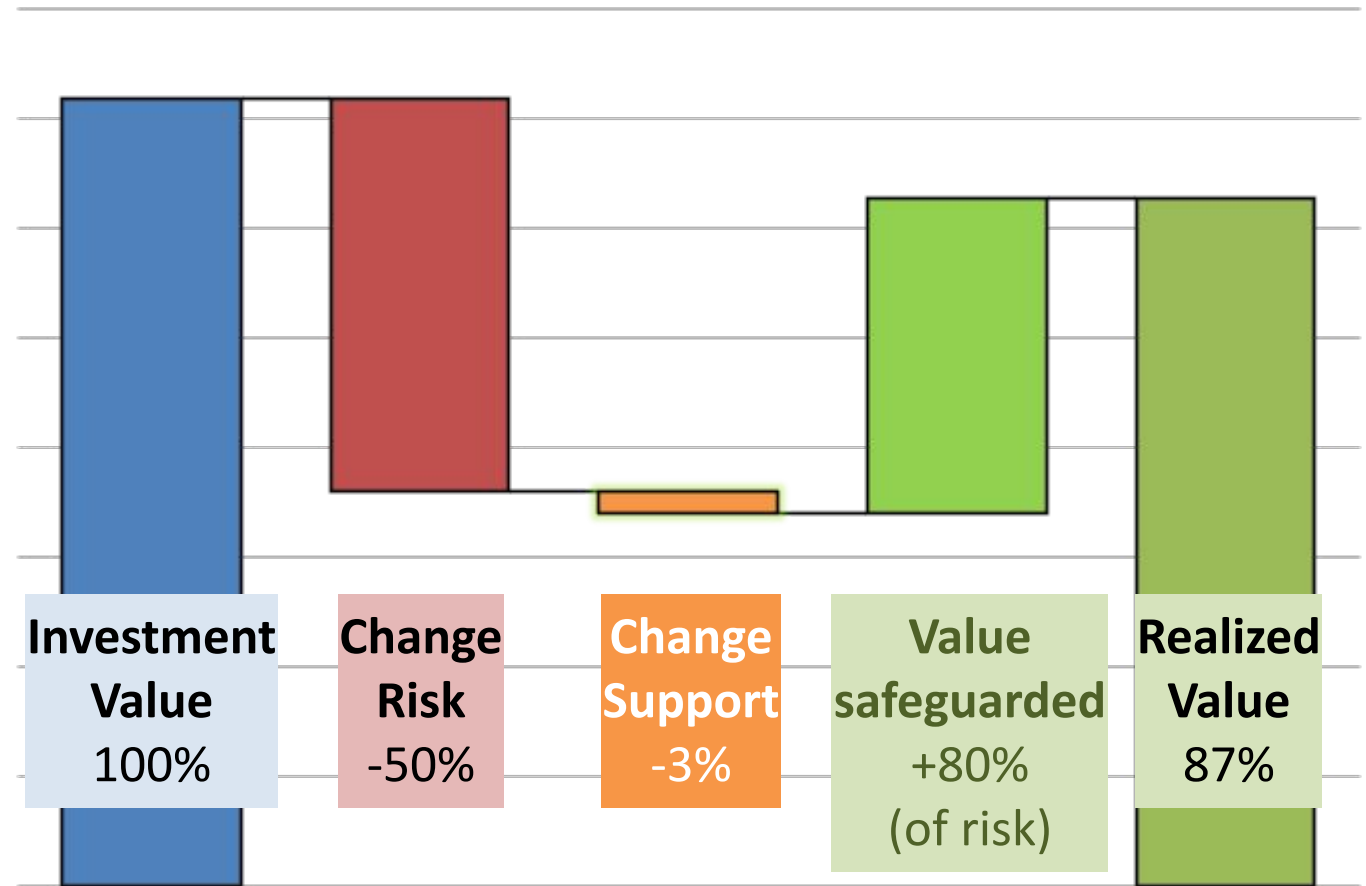

# “Change Management” means a lot Break it down to make it mean something!

# Business Case for Change Management

*'The complexities and difficulties of delivering change are well established, with failure rates frequently cited as high as 70%.'*

**Every transformation is**  
**personal**

**Every transformation is**  
**local**

# Going through change is an emotional roller coaster - for anybody!

# Build effective change leaders: Develop empathetic, resilient & motivating coaches

## Understand!

People **will** get  
**frustrated!**

## Level!

**Walk** in  
**my shoes!**

## Encourage self reflection!

What is the **cost** of  
**not changing?**

## Engage!

New systems, tools and  
processes can **only be as good**  
as you **define** them!

## Challenge!

**Change**  
or  
**be changed**

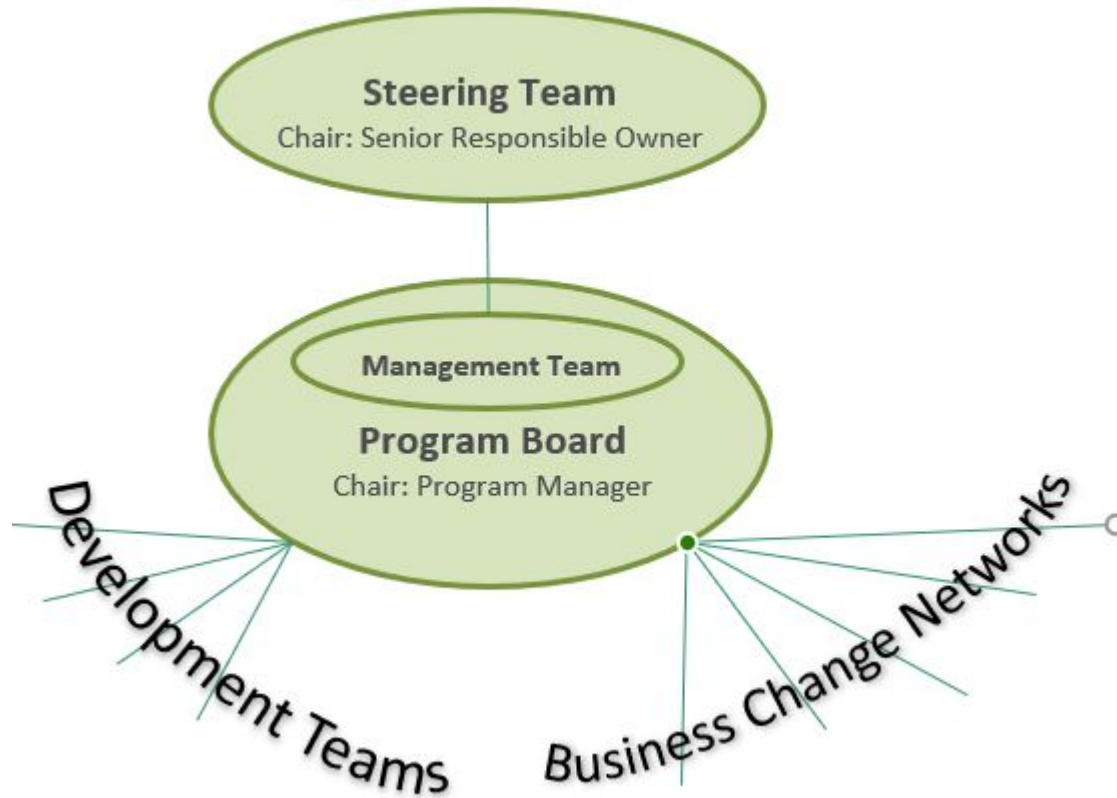

## Encourage learning from peers!

**When the winds of change**  
**blow,**  
**some** people build walls,  
**others** **build windmills**
